Q1 Atmanirbharta is a means for regaining India's share in the global economy & improving the quality of life for the citizens. Discuss.

Atmanirbhar is a policy where India wants to become independent in terms of import & wants to increasing their export.

In India there is a evidence that india was indulged in maritime trade with Mesopotamia, because we found seals of Indian in Mesopotamia (present day of Iraq, Iran, Syria, Turkey).

this evidence show that India was a global power & now India want to acquire or re-establish this power & atmanirbhar is an example of this.

At colonial time this power broken by britishers they used to start "draing resources from India". & forced us to become a supplier of raw material & indentured labour. & our share in world exports declined upto 2.53% in 1947.
