

Imran's Foreign Policy Challenges

\n\n

What is the issue?

\n\n

\n

- Pakistan Tehreek-e-Insaf (PTI) chairman Imran Khan sworn-in as the 22nd Prime Minister of Pakistan.

\n

- It is essential at this juncture to look at the various roles and challenges before him.

\n

\n\n

What are the opportunities and challenges ahead?

\n\n

\n

- **Situation** - The new Pakistani PM Imran Khan is likely to be confronted by daunting challenges on assuming office.

\n

- The country has a balance-of-payments crisis, the judiciary is in a hyper-activist mood, and water & climatic woes are being felt in some regions.

\n

- The hard-won gains against a decade-long terrorist campaign have to be consolidated, which is threatening to resurge again.

\n

- **Hope** - Many Pakistanis have traditionally blamed an incompetent and corrupt political class for most of these chronic problems.

\n

- Having built his politics on an anti-corruption platform, Imran has vowed a transparent and accountable administration for Pakistan.

\n

- Further, for forex and investments, he intends to bank heavily on the Pakistani Diaspora which is already a major source of remittances.
\n
- Despite Mr. Khan allegedly rose to power with military support, he had already sent out a conciliatory call on global policy.
\n
- **Challenges** - Improving ties with the U.S., Afghanistan and India, was a feat none of his predecessors has managed successfully.
\n
- He spoke about improving relationships with the United States, pursuing dialogue with India and helping usher in peace in Afghanistan.
\n
- While this is a positive start, overlooking the military to sustain goodwill with foreign powers (particularly India) will be a tough path ahead.
\n
- If Pakistani new PM Imran Khan can persuade the military to enable him to better Pakistan's international ties, it would be a significant achievement.
\n

\n\n

What is Imran's political stand on Afghanistan?

\n\n

- **Personal** - Mr. Khan takes pride in his Pashtun ethnic identity with familial roots in Waziristan, on the troubled border between Afghanistan and Pakistan.
\n
- Pashtuns constitute the majority in Afghanistan and the Afghani Taliban's rank and file are largely Pashtuns.
\n
- In this context, Imran has a long history of towing a soft line on the Taliban and their apparent struggle to resist outsider rule in Afghanistan.
\n
- This common ethnic bonding and tacit political support for Taliban has earned Imran the notorious moniker "Taliban Khan" in the liberal press.
\n
- **Political** - Mr. Khan's "Tehreek-e-Insaf party" came to power nationally with its base in "Khyber Pakhtunkhwa Province" bordering Afghanistan.
\n
- It is the province that suffered the most in the U.S. invasion of 2001 and the subsequent insurgency and counterinsurgency operations.
\n
- Mr. Khan's rivals in the province — the religious right and the secular

nationalist Pashtuns — will tear into him for failure in Afghanistan.

\n

- **Diplomacy** - Considering all this, Imran is likely to argue for a sustained peace process in Afghanistan, which includes the Afghani Taliban.

\n

- As both the U.S. and Afghan administration are currently open to direct talks with Taliban, it is only likely to make it easier for Imran.

\n

- Nonetheless, balancing the expectations of Afghani government, the Taliban and the U.S. is likely to fall on the Pakistani PM, which would be a challenge.

\n

\n\n

What is the situation in Indo-Pak ties?

\n\n

\n

- It is difficult for any Pakistani PM to improve ties with India as there are multiple vested interests.

\n

- The Pak Army have the power to derail any progress in this regard.

\n

- The Kashmir conflict remains an unsolvable case with highly polarised positions that both countries currently hold.

\n

- Despite distrust ranging high, Pakistan's Army Gen. Bajwa had indicated that he was positively inclined to better ties with India.

\n

- Further, he is largely been credited for the current lull in relentless firing across the "line of Control" in Kashmir.

\n

- The back-channel negotiations between Pakistan and India that Gen. Bajwa is reported to have supported may signal a rare new detente.

\n

- If the civilian Imran government and the powerful military are indeed on the same page as far as India is concerned, it will mark a promising start.

\n

\n\n

What is the context in U.S.-Pak ties?

\n\n

\n

- Mr. Khan also wants to improve Pakistan's relationship with the U.S.,

something the previous administrations haven't been successful with.

\n

- But the military has resented this and even Mr. Khan's own nationalistic campaign against American policies might hinder any significant progress.

\n

- **Economy** - Pakistani foreign exchange reserves are dwindling to very low levels and it desperately needs \$10 billion to save its economy.

\n

- Hence, Pakistan is likely to turn to the International Monetary Fund (IMF) as it is the most viable option, where the influence of U.S. is crucial.

\n

- Currently, U.S. officials have stated that they won't support any direct bailout package to save Pakistan from ill thought out Chinese investments and loans.

\n

- In any case, Mr. Khan is unlikely to embrace austerity cuts that would be mandated by the IMF for borrowing due to various economic concerns.

\n

- **Security** - U.S. and Pakistan remain at odds over how the Pakistani state deals with militants on multiple international and bilateral forums.

\n

- Pakistan was recently placed on the gray list of the "Financial Action Task Force" (FATF) for failing to shut down UN-sanctioned terrorist.

\n

\n\n

How does the future look?

\n\n

\n

- Mr. Khan has never held executive office before and will quickly realize that quick fixes and transparent government aren't easy to realize.

\n

- While he won't be able to keep pace with public expectations, the military, which operates in the background, suffers no such constraints.

\n

- If Mr. Khan can make the military a partner and enabler of his foreign policy ambitions he will pull off a significant feat.

\n

- If that succeeds, it will help establish an unprecedented era of regional peace and stability, an outcome all will be positively inclined to.
