

Mid-Term Review of Foreign Trade Policy

Why in news?

\n\n

The mid-term review of the five-year Foreign Trade Policy (FTP), which was rolled out in 2015, was released recently.

\n\n

What are the highlights?

\n\n

\n

- **Incentives** - Incentives under the Merchandise Export from India Scheme (MEIS) have been raised.

\n

- An increase from 2% to 4% for leather, textiles, agriculture products and carpets has been announced in this regard.

\n

- Service Exports from India Scheme (SEIS) incentive is raised by 2% with a view to boosting services sector exports.

\n

- Also, supplies of goods and services to SEZs to be treated as zero rated under GST.

\n

- Import of second hand goods for repair/refurbishing/re- conditioning/re- engineering is made free.

\n

- **Scripts**- Exporters are given duty exemption scrips under the FTP, pegged at a certain percentage of the total value of their exports.

\n

- The scrips can be used to pay duties on inputs including customs levies and can also be traded in the market.

\n

- Validity of Duty Credit Scrips has been increased from 18 to 24 months to enhance their utility in the GST framework.

- \n
- The GST for transfer and sale of these scrips has been abolished and brought to zero from 12%.
- \n
- The Centre has also allowed duty free imports for exports against self-certification.
- \n
- **Support systems** - A professional team will be set up to assist and support exporters in accessing markets, meeting regulatory norms, etc.
- \n
- A team of experts will also be set up to assist exporters on **GST**.
- \n
- A New Logistics Division to promote integrated development of the logistics sector will be put in place.
- \n
- The round-the-clock customs clearance facility has been extended to more number of sea ports and air cargo complexes.
- \n
- State-of-the-art trade analytics division in DGFT (Directorate General of Foreign Trade) will be set up for data-based policy actions.
- \n
- New Services Division is planned in DGFT to examine Exim policies and procedures to push services exports.
- \n
- **Besides**, new agricultural exports policy to focus on increasing exports of value-added agri products will be rolled out.
- \n
- Further, to address the capital blockage and liquidity problems of exporters, the government plans an e-wallet from April 1, 2018.
- \n

\n\n

What are the possible benefits?

\n\n

- \n
- Export is a strategic part of economic policy and thus logically a part of the foreign policy too.
- \n
- FTP review focuses on improving ease of trading across borders for exporters and importers.
- \n
- It also focusses on exploring new markets and products aimed at increasing India's share in the traditional markets and products.

\n

- This is perhaps to enhance participation of Indian industry in global value chains.

\n

- Promotion of exports by MSMEs and labour intensive sectors is expected to increase employment opportunities for the youth.

\n

- The review is aimed at taking corrective steps by assessing the impact of export sops on various sectors.

\n

- However, the package may not lead to immediate export growth but may contribute to stall the decline in growth of shipments.

\n
