

## **Augmentation program in Buxa tiger reserve**

### **Why in news?**

\n\n

Recently National Tiger Conservation Authority identified Buxa tiger reserve in West Bengal for the tiger augmentation programme.

\n\n

### **What is the significance of Buxa tiger reserve?**

\n\n

\n

- It has notified as a tiger reserve in 1983, located in Alipurduar district of West Bengal, parts of which border Bhutan.

\n

- The reserve is located very close to Assam's Manas Tiger Reserve.

\n

- Buxa consists of moist, deciduous and evergreen forests.

\n

- It is home to at least 68 species of mammals, 41 species of reptiles and more than 246 species of birds, four species of amphibians, 73 species of fishes and over a hundred species of butterflies and moths.

\n

- The herbivore list includes elephants, Indian gaur, chital, sambars, barking deer and hog deer.

\n

\n\n

\n\n

### How the augmentation program will be done?

\n\n

- \n
- Forest Department officials claimed there were tigers in the reserve, almost no sighting of the big cats raised questions about their presence.  
\n
- The survey of tigers in 2011 based on DNA analyses of scat put the number of tigers at 20.  
\n
- The initial plan is to introduce six tigers at Buxa.  
\n
- Experts have consciously decided not to augment tigers in the Buxa reserve from the Sunderbans, a completely different mangrove ecosystem.  
\n
- Instead, tigers from the forest reserves of Assam, which have a similar flora and fauna, will be introduced in Buxa.  
\n
- Experts believes that tigers are migrating from nearer Manas wildlife sanctuary through Buxa-Bhutan corridor.  
\n

\n\n

### What are the challenges?

\n\n

- \n
- The introduction of tigers is a challenge to forest officials as there is human habitation in the area.  
\n
- There are also common clouded leopards, jungle cats and fishing cats,

which occasionally surface in the tea gardens nearby.

\n

- Chances of wild animals getting killed while crossing the tracks are high, as broad gauge rail line is passing through the reserve.

\n

- Tourist accommodations run by both the forest department and private operators, in the reserve possess high threat to tiger habitat.
