## IBC for Air India

### What is the issue?

\n\n

\n

- The government's attempt to privatise the loss making Air India (AI) is not materialising.

\n

- Resolving it through the new Insolvency and Bankruptcy Code could be a better option.

\n

\n\n

### What is going on with AI?

\n\n

\n

- The airline is behind on its payments to several of its creditors.

\n

- These include both operational creditors, such as aircraft lessors, and financial creditors, such as banks.

\n

- Debts have been piling up for at least two months in both cases.

\n

- The aircraft lessors have declared that an "event of default" has occurred.

\n

- This may mean that they begin proceedings to take back the leased aircraft.

\n

- This would leave AI with a huge drawback in its schedule and place it in even more trouble.

\n

- On the other hand, the RBI has been quite firm on not covering up bad loans any further.

\n

- So if AI misses payments for 3 months, then the banks might be entitled to

declare its account a non-performing asset.

\n

\n\n

## **What next?**

\n\n

\n

- In the last financial year (2017-18), the government committed to releasing Rs 18 billion.

\n

- This was, reportedly, to allow the airline to deal with its accumulated losses.

\n

- But only Rs 6.5 billion of that amount was released.

\n

- AI is assuring its creditors to pay back, but the government may not release any more of the money.

\n

- This is because the creditors, concerned with NPA, could possibly move the AI case to the National Company Law Tribunal.

\n

- The AI account might be subjected to the process and principles of the Insolvency and Bankruptcy Code (IBC).

\n

- If this happens, the privatisation of AI might move forward purely through the application of law.

\n

- In this case, the committee of creditors could take the decisions that the government, as primary owner, is unwilling to take.

\n

- This would be favourable from the taxpayer's point of view, as it prevents the impact of the AI loss on taxpayers money by being under the government.
