Interstate water disputes bill

Why in news?

\n\n

Recently Union government introduced Inter-State River Water Disputes (Amendment) Bill 2017.

\n\n

What is interstate river water disputes act?

\n\n

\n
- The Interstate River Water Disputes Act, 1956 (IRWD Act) is an Act of the Parliament of India enacted under Article 262.
\n
- IRWD Act is applicable only to interstate rivers / river valleys, the Supreme Court and other courts do not have jurisdiction over such disputes but they can interpret verdicts of tribunals.
\n
- Whenever the riparian states are not able to reach amicable agreements on their own in sharing of an interstate river waters, section 4 of IRWD Act provides dispute resolution process in the form of Tribunal.
\n
- The tribunal responsibility is not limited to adjudication of issues raised by the concerned states and also investigation of other aspects which are in public domain.
\n
- When the tribunal final verdict issued based on the deliberations on the draft verdict is accepted by the central government and notified in the official gazette.
\n
- The verdict becomes law and binding on the states for implementation.
\n

What are the provisions included in the amendment?

- **Permanent body -** The bill proposes a permanent Inter-State River Water Disputes Tribunal (ISRWDT).
- In the current arrangement, tribunals are formed when a river water dispute arises.
- The ISRWDT will be an eight-member body comprising serving Supreme Court and high court judges.
- The members will retire when they are 70, there was no such limit earlier.
- **Time bound -** The entire process is restricted to five-and-half years, taking into account all extensions, there is almost no limit on extensions in the current arrangement.
- **Specialized committee -** The bill provides for a DRC (Disputes Resolution Committee) to enable negotiated settlements.
- This is an interesting provision, evidently to avoid disputes advancing to the next stage of legal adjudication.
- The bill says the Centre will set up the DRC with "members from such relevant fields, as it deems fit, for resolving the disputes amicably".
- **Data repository -** The other much touted provision for a data bank and information system.
- There is a similar provision in the current act as well, but it mandates the Centre to create such a repository.

What are the shortcoming of the bill?

- There is no clear mentioned provisions about speedy resolution of

disputes.

- The bill doesn't fully recognise the need to plug holes in the interstate river water sharing, development and governance.
- The benefits of the amendments will depend on the mechanism's efficiency.
- In any case of data bank, the challenge is not about gathering data and information, but more about states agreeing over a particular piece of data.
- There are challenges in implementing the tribunal's awards.
- The ad-hoc mechanisms devised outside this law have not been successful.

Quick fact

Ongoing Interstate water disputes

- **Sutlej-Yamuna Link canal Dispute -** States involved are Punjab & Haryana
