- The family of the girl, who allegedly died of starvation, had Aadhaar.  $\space{\space{1.5}n}$
- $\bullet$  This incident raises the concern that Social welfare beneficiaries must have the option to choose a convenient payment mode.  $\n$
- The Jharkhand Minister for Public Distribution has rescinded the order requiring the cancellation of ration cards not seeded with Aadhaar.  $\n$
- This is another addition to a long list of mass exclusions that a callous state claims as "savings".  $\n$

### What is the issue with Rajasthan elderly pension scheme?

\n\n

∖n

- Rajasthan-Recently the State government announced that pension forms would be accepted only 'online' through 'e-mitra Kendras or licensed private sector operators. \n
- Previously, to apply for a pension, an eligible person could submit pension forms to the panchayat.  $\gamma_n$
- Now, the applicant must have with themAadhaar and Bhamashah cards (a State-level identification platform similar to Aadhaar system), upload all the documents, submit their biometrics, pay a small fee and wait for verification and sanction.

∖n

• This process is supposed to cost Rs. 11 but "enterprising" e-mitras charge Rs. 100.

\n

• The meagre pension gives them some semblance of dignity and independence.

∖n

\n\n

\n

• Though effective digital applications exist, the question is this: who does digitisation serve? And, are there other, better mechanisms freely available? The most sensible policy would be to provide a parallel digital option.

\n

\n\n

#### What measures needs to be taken?

\n\n

∖n

- A demand that beneficiaries have the option to choose a payment mode that is convenient to them has been assiduously ignored.  $\n$
- There is, for instance, the plea to retain the option of choosing the panchayat route for pension applications.  $\n$
- A useful digital-based reform would have been to have an automatic pension sanction as soon as people become eligible for it.  $\n$
- The policies being pushed through, appear to be more out of a concern for administrative convenience than the right to life.

∖n

- Issues related to Consultation, Transparency, Accountability must be answered as soon as possible.  $\n$
- In many instances pensions schemes were restarted and eased after the intervention of civil society organisations, such interventions needs to be encouraged.

\n

\n\n

# Way forward

\n\n

∖n

- For the elderly poor, end-to-end digitisation of social security pension processes is a disaster waiting to happen.
- There are countless such people across India, who are now bewildered and suffering the consequences of new digital systems.  $\n$
- A disturbing lack of empathy, transparency and participation is allowing the weakest to be bullied into what is being portrayed as a way ahead.  $\n$
