### e-Krishi Samvad

\n\n

\n

- e-Krishi Samvad is internet-based interface and is a unique platform that will provide direct and effective solutions to the problems faced by farmers and stakeholders in the agriculture sector.
- It is also useful to get information pertaining to welfare and development of agricultural stakeholders.

\n

\n\n

## **Pneumococcal conjugate vaccine**

\n\n

\n

- Pneumococcal disease is the **leading cause of vaccine-preventable deaths in children** under five years of age globally and in India.
- India accounts for nearly 20% of global pneumonia deaths in this age group.
- The three-dose pneumococcal conjugate vaccine (PCV) will be rolled out in Mandi, Himachal Pradesh, six districts of Uttar Pradesh and 17 districts of Bihar as a part of the first phase.
- This will be followed by introduction in Madhya Pradesh and Rajasthan next year, and eventually across the country.
- The vaccine will give protection against **13 types of pneumococcal bacteria** which cause pneumonia disease.
- India on May 13 2017, rolled out the long-awaited anti-pneumonia vaccine as part of the government's Universal Immunisation Programme.

\n

\n\n

## **Ransomware**

\n\n

\n

- It is malware that encrypts the files on an infected system and then **demands a ransom to decrypt them**, with escalation in the demand over time.

\n

- The ransom demand is in Bitcoins, the cyber cryptocurrency that is hard to trace.  
\n
- The **WannaCryptor 2.0** 'ransomware', aka **WannaCry**, spreads using a flaw in older Microsoft Windows systems, which was made public when documents and cyber tools of the U.S. National Security Agency were leaked online.
