PSLV C-42

\n\n

- \n
- Polar Satellite Launch Vehicle-C42 of the ISRO has recently launched two earth observation satellites of the United Kingdom.
- \n
- The two satellites are NovaSAR and S1-4 , weighing 450kg each.
- \n
- They were launched in to 'Sun Synchronous Orbit', which is usually used for imaging, reconnaissance and weather forecasts.
- \n
- NovaSAR is a S-band synthetic Aperture radar satellite, intended for forest mapping, land use, and ice cover monitoring as well as flood and disaster monitoring.
- \n
- S1-4 is a high-resolution optical earth observation satellite that will be used for surveying resources, environment monitoring, urban management, and disaster monitoring
- \n
- In PSLV C-42, the core alone version without six strap-on motors were used.
- \n
- It is the 44th launch of polar satellite launch vehicle (PSLV).
- \n

\n\n

Eyerovtuna

\n\n

- \n
- Eyerovtuna is India's first commercial remotely operated vehicle (ROV) underwater robotic drone.
- \n
- The robotic drone, can be navigated up to a depth of 50 meters to take real-

time HD video images.

\n

- It will be helpful to examine ship hulls or undersea cables or bridge moorings, eliminating the need for costlier and riskier manual inspection by divers.

\n

- It was tested for the first time in India's first solar ferry in Kerala's Vaikom.

\n

- It can be put to uses ranging from inspections of ship hulls, ports, dams and nuclear power plants, to search and rescue, naval mine detection and ocean studies.

\n

- It will be used by the laboratory of DRDO.

\n

\n\n

Chiller Star Labelling Programme

\n\n

\n

- A Chiller is a machine that removes heat from a liquid via a vapor-compression cycle.

\n

- Chillers are used extensively for space conditioning of buildings and for industrial process cooling applications.

\n

- It is energy intensive system and contribute to more than 40% of total energy consumption in commercial buildings.

\n

- Chiller Star Labelling programme was recently launched by Bureau of Energy Efficiency (BEE).

\n

- It envisages providing star rating to chillers in terms of its energy performance.

\n

- Through this programme, it is estimated that more than 500 million units of electricity would be saved along with reduction of Greenhouse Gas emission (GHG) of 0.5 million-ton equivalent by 2019.

\n

\n\n

Bureau of Energy Efficiency

\n\n

- \n
- Bureau of Energy Efficiency (BEE) was set up under the provisions of Energy Conservation Act, 2001.
- \n
- Its mission is to assist in developing policies with the primary objective of reducing energy intensity of the Indian Economy.
- \n
- Energy Conservation Act provides for regulatory and promotional functions of BEE.
- \n
- BEE is responsible for \n
 - \n
 - Create awareness and disseminate information on energy efficiency and conservation
 - \n
 - Promote innovative financing of energy efficiency projects
 - \n
 - Give financial assistance to institutions for promoting efficient use of energy and its conservation
 - \n
 - Prepare educational curriculum on efficient use of energy and its conservation
 - \n
 - Implement international co-operation programmes relating to efficient use of energy and its conservation.
- \n

Members of Parliament Local Area Development Scheme (MPLADS)

\n\n

- \n
- Central Information Commission (CIC) in its recent report has highlighted that Rs.12,000 crore of MPLADS remains unspent.
- \n
- CIC has asked Lok Sabha Speaker and the Rajya Sabha Chairman to come out with a legal framework to ensure accountability of parliamentarians and political parties for their obligations under the scheme.
- \n
- The MPLADS allots Rs.5 crore per year to each Member of Parliament (MP) to be spent on projects of their choice in their constituency.
- \n

- Lok Sabha MP has to choose a gram panchayat from the constituency he/she represents and the Rajya Sabha MP chooses it from the state he/she represents.
- MPs cannot pick villages which belong to themselves or their spouses.
- The scheme is funded and administered through the Union Ministry of Statistics and Programme Implementation (MoSPI).
- Projects are to be recommended to and implemented by the district-level administration.

UN and Rakhine

- UNHRC and UNDP has recently been given permission for the first time to enter northern Rakhine to access local conditions in the state since last year.
- It is the first step of the UN's confidence building measures.
- More than 7,00,000 rohingya muslims fled the northern rakhine region.

- UNHCR will publish a report about its investigations into atrocities against rohingyas.

Nahargarh Biological Park

- Nahargarh Biological Park is part of Nahargarh sanctuary in Jaipur.
- It is located in the foot hills of Aravalli.
- The park is known for breeding centre of lions.
- State's first lion safari was recently inaugurated in this park.
