## Prelim Bits 20-01-2017

### Second capital of Himachal Pradesh:

\n\n

\n

- **Dharamshala is declared as the second capital of Himachal Pradesh.**

\n

- Dharamshala is located in the Kangra Valley, in the shadow of the Dhauladhar mountains.

\n

- The major water body at Dharamshala is Dall Lake and Kakeri Lake.

\n

- It is the 'Capital in exile' of The Dalai Lama and also serves as the headquarters for Tibetan government in India.

\n

- It is predominantly influenced by the Tibetan culture and the Namgyal Monastery serves the devotees of Buddhism.

\n

- The famous festival is Hindu Lohri festival and folk dance is called as "**Lhamo**".

\n

\n\n

### Primate Species:

\n\n

\n

- Primate is a biological order that included all the species commonly related to the **lemurs, monkeys, apes and humans.**

\n

- The most distinguishing feature of primates is fingernails.

\n

- Primates have large brains relative to other mammals, five fingers, a generalized dental pattern, and a primitive body plan.

\n

- Though primates are found all over the world, they are mainly in regions of Africa, South America, Madagascar and Asia.  
\n
- Worldwide, around 60 per cent of the 500 known primate species are threatened with extinction.  
\n
- Golden snub-nosed monkey, ring-tailed lemur, Javan slow loris, Azara's night monkey are the important primate species in the tropical and sub-tropical regions.  
\n

\n\n

### **Cryogenic engine and GSLV MkIII:**

\n\n

- CE20 is the new cryogenic rocket engine recently passed the high altitude flight acceptance test.  
\n
- It is being developed to power the upper stage for the first flight of the country's most powerful satellite launcher GSLV-Mark III.  
\n
- The cryogenic stage is vital for a GSLV rocket as it gets its final and biggest push in space in this stage.  
\n
- GSLV MkIII, will double ISRO's lifting power for communications satellites by lifting a four-tonne satellite to Geostationary Transfer Orbit (36,000 km high).  
\n
- ISRO plans to launch 3,200 kg communication satellite, GSAT-19 via GSLV MKIII.  
\n
