Ambubachi Mela

\n\n

\n

- Ambubachi Mela is a four-day fair to mark the annual menstruation of the goddess at Kamakhya temple in Nilachal Hills in Guwahati, Assam.

\n

- Kamakhya temple is one of 51 shaktipeeths or seat of Shakti followers.

\n

- Shakti peeth is originated based on the story of the death of goddess Sati.

\n

- God Shiva who held her dead body, then started his dance of destruction, causing Sati's body to disintegrate and fall into pieces.

\n

- The sites where these portions of Sati goddess fell, are the Shakti peeth.

\n

- Kamakhya temple's sanctum sanctorum houses the yoni - female genital symbolised by a rock.

\n

- Ambubachi Mela is also considered as an occasion to promote awareness on menstrual hygiene.

\n

- This ritualistic fair is one of the reasons why the taboo associated with menstruation is less in Assam compared with other parts of India.

\n

- **Four Major Shakthi Peeths in India** - Jagannath Temple, Puri; Kamakhya Temple near Guwahati; Dakshina Kalika in Kolkata; Tara Tarini near Brahmapur, Odisha.

\n\n

Spanish Flu

\n\n

\n

- The outbreak of Spanish Flu in 1918 is the history's worst known infectious disease.

\n

- It is considered to be one of the global pandemics that causes death of 40 millions in 1918-1919 across the world.

\n

- Influenza is a virus that is known to cause the flu.

\n

- The virus attacks mainly the upper respiratory tract such as the nose, throat and bronchi and rarely also the lungs.

\n

- The different types of influenza include A, B and C.

\n

- The serotypes of influenza A virus like the H1N1, H5N1, H3N2, etc., have caused pandemics in humans.

\n

- H1N1 is the strain that caused Spanish outbreak which acquired the ability to infect humans and then to become transmissible among humans.

\n

- The virus is easily passed from person to person through the air by droplets and small particles excreted when infected individuals cough or sneeze.

\n

- The influenza virus enters the body through the nose or throat and takes between 1 to 4 days for the person to develop symptoms.

\n

- Disease spreads very quickly among the population especially in crowded circumstances.

\n

- Cold and dry weather enables the virus to survive longer outside the body than in other conditions and, as a consequence, seasonal epidemics in temperate areas appear in winter.

Indo-UN Small Satellites Programme (UNSSP)

\n\n

\n

- UNSSP is launched by ISRO to train 90 qualifying engineers from various countries to build and test three small satellites each year.

\n

- ISRO's Bengaluru-based U.R. Rao Satellite Centre (URSC) until recently known as ISAC will train the overseas students.

- \n
- Students will be hosted in Bengaluru for two months each year and work in three annual batches of 30.
- \n
- This capacity-building programme is in response to a request that the UN Office for Outer Space Affairs had made to space-faring nations last year.
- \n
- **UNISPACE+50** - It is an event marking the 50th year of the first UN Conference on the Exploration and Peaceful Uses of Outer Space.

\n\n

Eruption of Japan Volcano

\n\n

- \n
- A Japanese volcano that figured in a 1960s James Bond movie erupted explosively.
- \n
- **Shinmoedake** volcano is in the southernmost main island of Kyushu, Japan.
- \n
- It is located in a mainly rural area about 985 km from Tokyo.
- \n
- It recently erupted after a strong earthquake of 6.1 magnitude shook the country's west Osaka region.
- \n
- Few months back, "Mount Ito" erupted for the first time after 250 years.
- \n
- It is a part of the Mount Kirishima group of volcanoes and located few kilometres away from Shinmoedake.
- \n

\n\n

Country in news - Tajikistan

\n\n

- \n
- A high level global conference on "**International Decade for Action: Water for Sustainable Development**" was recently organised in Tajikistan.
- \n
- Tajikistan lies in the heart of Central Asia.
- \n
- It is bordered by Kyrgyzstan on the north, China on the east, Afghanistan on the south, and Uzbekistan on the west and northwest.

\n

- Tajikistan was a constituent (union) republic of the Soviet Union from 1929 until its independence in 1991. The capital is Dushanbe.

\n

- The Trans-Alay range, part of the **Tien Shan** system, reaches into the north and peaks of the **Pamir mountain** system occupy the southeast.

\n

- The largest valley is the western portion of the **Fergana Valley** in the north.

\n

- **Lake Karakul**, is the largest lake lying at an elevation of about 13,000 feet.
