Right to Vote

What is the issue?

 $n\n$

\n

- Article 326 of the Constitution provides for universal adult suffrage, but does not specifically mention the right to vote.
- \bullet The absence of a constitutional right to vote has consequences. $\ensuremath{\backslash n}$

How courts determine the electoral system?

 $n\n$

\n

- Supreme Court requested the government's views on a PIL seeking to impose a lifetime ban on contesting elections for those sentenced to imprisonment for more than two years.
- \bullet Currently, the ban extends to six years after the completion of a sentence. $\ensuremath{^{\backslash n}}$
- The court has held that citizens are entitled to cast a 'none of the above'
 vote, that the concealment of criminal antecedents constitutes a corrupt
 practice under the law, and that electoral appeals to caste and religion are
 impermissible.

\n

- More recently, the court has attempted to gradually reshape the ballot.
- \bullet They raise fundamental questions about the nature of our democracy. \n

What are the problems?

 $n\n$

\n

\n

- The court has increasingly used the regrettable, caste-based taxonomy of 'purity' and 'pollution' in its decisions.
- e.g In 2013, it endorsed the decision of the Patna High Court observing that candidates with criminal records pollute the electoral process, affect the sanctity of elections and taint democracy.
- The court's language is symptomatic of its conception of its own role to 'disinfect' the electoral process.
- Rights that are not explicitly set out in the Constitution, such as the right to privacy, have routinely been impliedly read into the text.
- \bullet But the court has refused to categorically recognise the right to vote as an inalienable constitutional right. $\mbox{\sc h}$
- This could mean that it is a privilege that can be taken away as easily as it is granted.
- Participation in the electoral process is often seen as a gateway right, or a 'right of rights'.
- The absence of a constitutional right to vote makes it easier to impose wide restrictions on who can exercise that right, and the circumstances in which they may do so.
- This can be seen in the court's endorsement of the ban on the voting rights of prisoners.
- Blanket prohibitions on voting are the surest way of alienating a political community.
- The ban is draconian as it disregards the seriousness of their offences or the length of their sentences.
- Moreover, prisoners awaiting trial are also denied this 'privilege'.
- The court's move to change the rules of the game to match its own conception of the ideal electoral system is detrimental.
- \bullet The right to vote and the right to contest elections are fundamental markers of citizenship in a constitutional democracy. $\mbox{\sc h}$
