

# **State Funding of Elections**

#### Why in news?

\n\n

The Prime Minister wants a debate on transparency in political funding, as part of the drive to clean up black money.

\n\n

### How black money plays a role in elections?

\n\n

∖n

- Indian elections cost huge sums of money.
  - \n
- These money can hardly come from retail contributions of political-party sympathisers. It has to come from big corporate houses.  $\n$
- But, contributions from corporate houses are largely from undeclared income and, hence, the contribution is not recorded.  $\n$

\n\n

### Why transparency in political funding is needed?

\n\n

\n

- This is a  $\mathbf{prerequisite}$  for any sustained and effective cure for black money.  $\ensuremath{\sc n}$
- As long as India's politics is systemically dependent on unaccounted money for its finances, there can be **no decisive political will** to eradicate black money.

∖n

• Political parties spend huge amounts in election years but report income that is only a fraction of what they spend. When the bulk of their spending is

financed by unaccounted income, it **compromises the integrity** of governance, **corrupts the civil service**, **promotes crony capitalism** and makes managing the government a decisive core competence of entrepreneurship.

\n

• All this will change only if the sources of political funding are made fully transparent.

\n

\n\n

## What is state funding?

\n\n

∖n

- The idea of state funding of elections is a concept designed to reduce corruption by funding elections with government money as opposed to individual campaign contributions.
- Many recommend that state funding of elections can be the best way to achieve transparency in political funding.
  \n
- It is also believed that state funding is a natural and necessary cost of democracy. It brings new and growing parties in par with the established parties, thus ensuring fair elections.
- If parties and candidates are financed with only private funds, economical inequalities in the society might translate into political inequalities in government.

\n

\n\n

## Is the state funding a good idea?

\n\n

\n

- In theory, State funding would provide a level playing field for political parties and cut out money power from the equation, but in practice, things may not work out so linearly. India collects only about 16% of GDP as a tax.  $\n$
- The state expenditure on many essential public goods such as primary health care and public health engineering is very small.  $\n$
- Given this situation, the public resources have to be channeled towards and

not diverted from such essential services, and that too to finance something that already gets abundantly financed.  $\n$ 

- Further, the state funding of elections will not prevent parties from lobbying and getting undisclosed supplementary private funding, with associated implications.
  - \n
- Therefore State funding is not the solution to the opaque funding of politics in India.

∖n

\n\n

### What is the solution?

\n\n

∖n

- In India, the main reason for the prevalence of black money in election spending is the **unrealistically low limits** set by the Election Commission of India on campaign spending by political parties and candidates. More realistic campaign spending limits should be set.
  - ∖n
- Part-public funding of election campaigns is a practice in some countries. e.g United States and Britain. We could have our own version.
- The strict monitoring of expenditure by political parties and their functionaries at every level, starting with the panchayat, polling booth area and municipal ward should be done.
- Every party should disclose its expenditure every month at every level.  $\ensuremath{\sc n}$
- This should be **open to challenge** by rival parties, media, etc.  $\^{n}$
- The Election Commission could determine the actual expenditure and ask the parties to show the source of income.  $\n$
- Parties will have to collect money in the open.  $\slash n$
- These steps will ensure transparency.  $\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\space{1mm}\s$
