## The Right to Recall

### What is a recall election?

\n\n

\n

- A recall election (also recall referendum) is a procedure by which voters can remove an elected official from office through a direct vote before their term has ended.

\n

- Recalls, which are initiated when sufficient voters sign a petition, have a history dating back to the ancient **Athenian democracy** and are a feature of several contemporary constitutions.

\n

- It has been in place in Canada's Legislative Assembly of British Columbia since 1995.

\n

- In the United States, several states allow for recall on specific grounds such as misconduct or malfeasance.

\n

\n\n

### India and Right to Recall:

\n\n

\n

- This is not a new concept for India. The concept of "**Rajdharma**", wherein the lack of effective governance was a cause for removal of a king, has been spoken about since the Vedic times.

\n

- M.N. Roy, in 1944, proposed a shift to a decentralised and devolved form of governance, allowing for representatives to be elected and recalled.

\n

- **The ROPA, 1951**, only provides for "vacation of office upon the commission of certain offences and **does not account for general**

**incompetence** of the representatives or dissatisfaction of the electorate as a ground for vacation”.

\n

- Nearly a decade ago, Lok Sabha Speaker Somnath Chatterjee sought the introduction of a system of a “Right to Recall” of a legislator to ensure accountability.

\n

- The Right to Recall also exists at local level bodies in Madhya Pradesh, Bihar and Chhattisgarh.

\n

- There exists no recourse for the electorate if they are unhappy with their elected representative.

\n

\n\n

## **What are the advantages?**

\n\n

\n

- **A free and fair election is a right** of the citizens of the country. When their elected representatives no longer enjoy the confidence of the people, the people must have a right to remove them.

\n

- Right to Recall is a right that would act as a significant **check on corruption** along with ongoing criminalisation of politics.

\n

- Studies highlight that elected representatives who are not up for election behave differently to those who are.

\n

- The true idea of democracy can only be achieved on this edifice of accountability for politicians.

\n

- Having a process to recall **could also limit campaign spending**, as morally skewed candidates weigh the risk of being recalled.

\n

- This right would help **engender direct democracy** in our country, broadening access and raising inclusiveness.

\n

- To deepen democracy, the right to recall must be given hand in hand with the right to vote.

\n

\n\n

## What could be done?

\n\n

\n

- However, due care must be taken in the introduction of legislation associated with such laws.

\n

- To encourage the process of the right to recall, **legislative change is needed** which seeks to introduce recall petitions, for elected representatives in the Lok Sabha and in Legislative Assemblies.

\n

- It is necessary to ensure that a recall process is not frivolous and does not become a source of harassment to elected representatives.

\n

- Thus, the process should have several **built-in safeguards** such as an **initial recall petition** to kick-start the process and electronic-based voting to finally decide its outcome.

\n

- Furthermore, it should ensure that a representative **cannot be recalled by a small margin of voters** and that the recall procedure truly represents the mandate of the people.

\n

- To ensure transparency and independence, **chief petition officers** from within the Election Commission should be designated to supervise and execute the process.
