

## Unification of Cyprus

### Why in news?

\n\n

Talks to end the **43-year-old political deadlock** on Cyprus broke down, as Turkish and Greek cypriot negotiators failed to reach compromises over the security of the island.

\n\n

### What is the history of the dispute?

\n\n

- \n
  - The British formally annexed Cyprus in 1914.
- \n
  - In the 1950s, Greek Cypriots engaged in a guerrilla war against the British, calling for unification with Greece.
- \n
  - In 1960, British granted independence to the island, instituting a power-sharing arrangement between Greek and Turkish Cypriots.
- \n
  - In 1974, Greece's military junta government backed a coup against Cyprus's president, with Athens demanding a greater say in Cypriot affairs and pushing for union with the island.
- \n
  - In response to the coup, Turkey launched a military invasion, occupying the northern third.
- \n
  - Greek Cypriots were forced to flee from the north to the south, while Turkish Cypriots fled in the opposite direction.
- \n
  - In 1983 the northern part of the island was declared as the breakaway state of the Turkish Republic of Northern Cyprus but the only country to recognise it was Turkey.
- \n

\n\n

\n\n

### What's happening now?

\n\n

\n

- The objective is a federation of two states, one largely Greek-speaking and the other mostly Turkish-speaking.

\n

- The two regions would be largely autonomous, but there would be one head of state.

\n

- The talks are being facilitated by the United Nations. It said reaching an argument would be hard but not impossible.

\n

- The potential for reconciliation also have been boosted by **Turkey's bid to join the EU**, which was then high on the agenda in Brussels.
- But, more than a decade later, a reunion seems to be as elusive as ever.

\n\n

## What are the main obstacles?

\n\n

- **Land and property** are two of the main sticking points.
- Whether Turkish Cypriots displaced from the southern part of the island should be allowed to return to their old homes, and vice versa.
- That would mean turfing some families out of homes that they have lived in for decades.
- It's envisaged that the disputes could be addressed through a combination of land swaps and financial compensation.
- The establishment of an institutional framework to **secure the interests of both ethnic groups** is another.
- Assurances of a rotating presidency between Greek and Turkish-Cypriots in a future federal union have not soothed anxieties in the north.
- Another challenge is **Turkey's refusal to withdrawal of its troops** stationed in the north.

\n\n

## What are the benefits of a united Cyprus?

\n\n

- A united Cyprus would allow both parts of the island to realise their **immense tourism potential**.
- The prospect of exploitation of **offshore gas reserves** in the Mediterranean is something the two sides could set their eyes on.
- A successful settlement would allow **Cyprus to be more in control of its**

**affairs**, without both the sides relying on neighbouring powers.
