

Uniqueness of 'Kudumbashree' SHG in Kerala

What is the issue?

 $n\n$

\n

- The 'Kudumbashree' women in Kerala played a significant role in the relief operations after the recent floods.
 - \n
- It is essential in this backdrop to understand how 'Kudumbashree' is effective and different from other Self Help Groups (SHGs).

 $n\n$

What is 'Kudumbashree'?

 $n\n$

\n

• The 'Kudumbashree' SHG was started in 1998 by the CPI (M)-led government in Kerala.

\n

- \bullet The Kudumbashree groups are, however, not affiliated to any political party. $\ensuremath{^{\text{h}}}$
- \bullet It was envisioned as a part of the People's Plan Campaign and local self-governance, with women at the centre of it. $\ensuremath{\backslash} n$
- \bullet In its conceptualisation, it was markedly different from the self-help group (SHG) movements in many parts of India. $\mbox{\sc h}$
- The thrift and credit activities at the grassroots level through the formations of saving groups is a common feature.
- However, the structure and functioning of the Kudumbashree model largely differed.

\n

What is the governance structure?

 $n\n$

\n

• Kudumbashree has a three-tier structure.

 \bullet The first is the basic unit which is the neighbourhood groups (NGs). $\ensuremath{\backslash n}$

- There could be several such units within a ward and they are networked through the area development societies (ADS).
- All ADSs are federated through the community development societies (CDS).
- ullet There are core committees of elected coordinators at all three levels.
- There are at least five in each NG, seven or more at the ADS level and around 21 at the CDS level.
- Unlike in other States, all the coordinators are elected in Kerala.
- Each Kudumbashree member has a vote, and direct elections for the NG coordinators are held every three years.
- These people, in turn, elect the coordinators of the ADS who elect the members of the CDS.
- \bullet A majority of members of the coordinator groups have to belong to women below the poverty line or from comparatively poorer sections. \n
- Besides, there is reservation for Dalit and Adivasi women.
- \bullet At the district and State levels, employees/officers of the government are appointed on deputation to help the Kudumbashree groups. \n

 $n\n$

What are the other features?

 $n\n$

۱n

• The micro-enterprises undertaken by the women NGs in Kerala strengthen the community bonds.

\n

• The firms include that for organic vegetable growing, poultry and dairy,

catering and tailoring.

\n

- \bullet The community farms run by Kudumbashree groups are now acknowledged as a critical avenue for the rejuvenation of agricultural production in Kerala. \n
- \bullet Kudumbashree training courses are also quite comprehensive, and include $\ensuremath{^{\backslash n}}$

 $n\n$

\n

i. women's rights

۱n

ii. knowledge of constitutional and legal provisions

۱n

iii. training in banking practices

\n

iv. training in skills to set up micro-enterprises

\n

 $n\n$

\n

• It has thus made a huge contribution in socially empowering the women of Kerala.

\n

 $n\n$

How is it a unique model?

 $n\n$

\n

• In other States, SHGs came to be dominated by women from better-off families or from powerful castes.

۱n

• This led to unhealthy hierarchies in which poorer women and Dalit women were denied decision-making powers.

\n

• Over the years, women dropped out from these sections for a number of reasons.

۱n

• Eventually, the social potential of the SHGs to challenge dominant structures of gender bias at the local level weakened.

• But, the Kudumbashree model works with a socially representative leadership.

۱n

• This secular composition acts as a facilitator for the secularisation of public spaces.

۱n

 \bullet This 'Made in Kerala' model can be implemented across India, if it is done with the same secular and gender-sensitive spirit. \n
