Q The concept of a lifestyle for the environment (LIFE) movements is in line with the global climate justice movement. Justify.

The idea of LIFE was introduced by India during 26th United Nations climate change Conference of the Parties [COP26] in Glasgow in 2021.

Concept of LIFE : The idea promotes an environmentally conscious lifestyle that focuses on mindful and deliberate utilisation instead of mindless and wasteful consumption.

LIFE as global climate justice movement:

LIFE resonates with the global climate justice. India has rightfully called for — Highlighting enhanced obligations to support climate abatement and mitigation.

As per NDC [nationally determined contribution], India has committed to reduce emissions intensity of its GDP by 45% by 2030.

The vision of sustainable lifestyles and climate change to protect the poor and the vulnerable of the society from the adverse

impacts of climate change.

LIFE helps propagating a healthy and sustainable way of living based on traditions and values of conservation and moderation.

Way Forward:

LIFE - global vision, India with our 1.3 billion people, if we achieve a true Jan Andolan, momentum will be enormous.

With COP27 next month India set to assume G20 presidency followed by halfway mark to Agenda 2030 next year. Thus concept of LIFE is in line with climate justice movement.
