

## Industrial Revolution

Social consequences of industrial revolution :-

Background :-

\* The industrial revolution was the beginning of a machine age. It is around 18<sup>th</sup> century.

\* The industrial revolution was coined by Arnold Toynbee at 1830's.

\* Before industrial revolution all are prefer self sufficient economy. but after industrial revolution all peoples are in profit minded.

\* Industrial revolution was done at England firstly because of political stability, availability of the resources, absence of Feudalism, etc.,

Consequences of IR:

<sup>Social</sup> ~~political~~ consequence are defined below

→ Division of society

→ Fast urbanisation

→ Social crimes

→ Women and child welfare

→ Housing.

i) Division of society :-

Industrialization and capitalism greatly impacted the class structure.

Maxin Perry says industrialization of Europe ~~to~~ destroyed forever the old division of society into clergy, nobility and led to the
