

Q Discuss the rationale in central government decision to suspend trade across the line of control between Jammu and Kashmir and Pakistan occupied Kashmir?

Ans Government of India recently suspend the trade activity across the line of control due to some terrorist activity in "loc" area and prohibited some illegal weapon transportation.

Recently Kashmir polwama attack so Government suspend this trade.

Impact of suspend trade of LOC

Government decision is very good towards our national security but this suspend trade create both positive and negative impact.

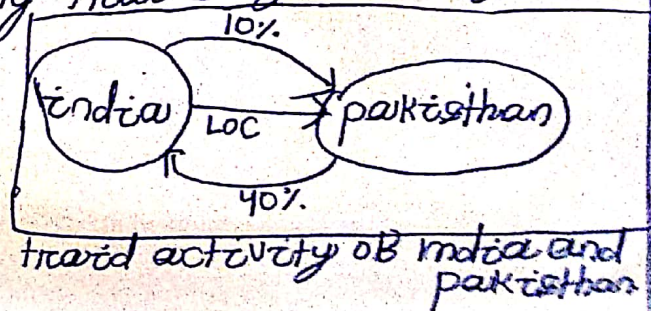

Positive Impact

- 1) Prohibited the illegal weapon transportation activity in line of control area.
- 2) Prohibited terrorist involves people in Indian territory.
- 3) For our internal peace and security.
- 4) On the prospective of illegal migration.

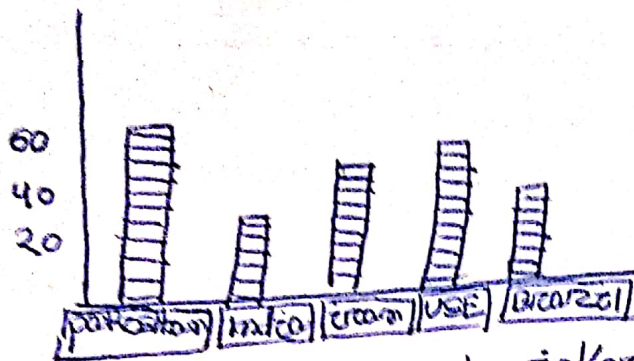

Negative Impact

- 1) Nearly 27% of informal trade conducted in LOC area by the local people so it's affect our indirect economy.
- 2) It's create a war situation of LOC area people.
- 3) Local traders suffer.
- 4) Create an obstacle about travel of bus and truck.

So in rationality government take a big step towards boarder management that's why trade system might be continue.

So, through the trade suspend activity of LOC area create big obstacle towards two nation basically Pakistanian subvert alot.

this chart diagram refers to international trade of different nation.

So Pakistan losses their economic strength in global level also India losses very less numbers.

it is a good indication for India on the basis for discuss economic condition of Pakistan because Pakistan provide illegal weapon and money to terrorist group.

that's government take good step in border area because both side of people subvert this condition and as soon as possible he started trade activity in LOC area with proper inquiry.
