More to be added:

→ Though the portal benefits monetarily help many workers require protection and security.

→ Many street vendors are often fell prey to ragging by public and other officers. Govt. should ensure their protection on making laws.

→ Many construction workers are working in hazardous field without any protection. They should be given adequate salary and security.

Way Forward:

Though the portal has 120 million beneficiaries, many more informal workers are unaware of it. Government should ensure that everyone are involved in developing process by making needed arrangements.
