

Q. What do you mean by the independence of judiciary? Discuss the factors that are required to strengthen the judiciary as an institution at various levels?

Ans:

The meaning of the independence of judiciary implies that it is not controlled or regulated by any external forces. An independent judicial system of any country ensures transparency in governance.

There are factors which prove to strengthen the judiciary as an institution at various levels:—

(i) As an institution, Judiciary would be to develop leadership at all levels. Leadership role brings decisiveness and direction at all levels. An upright leader has a vision, commitment to carry forward any institution to its climax.

(ii) In the terms of financial matters, an institution i.e. Judiciary must have autonomy to develop its own world-class infrastructure and human resource component to deal with, in case of India, pending crores of civil & criminal case.
