① India's G20 leadership is an ideal opportunity for New Delhi to build an effective platform for South Asian Region.
Analyse. (Code words)

G20 countries represents 80% of world GDP, and 75% of world trade;
It shows an important of G20 countries to solve many problems in world.

G20 as effective platform for South Asia

① Socio-economic group of South Asia needs special attention from G20.

- South Asia region contains $\frac{1}{3}$ rd of global poor

② Climate crisis of world - especially from South Asian region to solve in G20

- 63% of world emission come from South Asia.

③ India's neighbourhood problems needs a effective platform like aao.

- Sri Lanka economic crisis (83.4% of Inflation in 2022)

- Pakistan \$30 billion loss due to floods 2022

④ For improvement of health infrastructure in south asia region.

⑤ G20 as platform for clearing energy crisis in south asia.

- India - 70% of energy - coal imports

- Bangladesh - 70% of energy - LNCr
(Liquefied natural gas)

Limitation

→ No proper funding channel for problems

→ West, USA vs China, Russia
post covid-era rivalry stops proper solution
→ Russian-Ukraine war → stop supply chain of energy

As, India being the only country in view from south asia nation, it represents majority of people from this region and slowly emerge as south asian leader
